SENIOR SOFTWARE DEVELOPER, 04/2023 – 04/2025

ALT-D Technologies

Technologies: Laravel, Vue.js, Python, Django, JavaScript, jQuery, AJAX, MySQL

Responsibilities: Full-stack development, database management, project planning, client meetings

Key Achievements:

- Led multiple web application projects from concept to deployment
- Successfully integrated payment gateways for secure transactions
- Implemented third-party mail services to streamline communication processes

- Utilized version control tools to manage source codes across multiple projects.
- Led small development teams, overseeing project progress and mentoring junior engineers.

SOFTWARE DEVELOPER, 03/2022 - 03/2023

Finekube IT solutions

Technologies: Laravel, CodeIgniter, HTML, CSS, AJAX, jQuery, MySQL

Responsibilities: Full-stack development, database management, project planning, project discussions, SDLC

Key Achievements:

- Led project planning and execution from scratch
- Delivered high-quality web applications using Laravel and CodeIgniter
- Ensured seamless client communication and requirement gathering
- Successfully integrated payment gateways for secure transactions

PHP DEVELOPER, 11/2019 - 02/2022

Glisten IT Solutions

• **Technologies:** CodeIgniter, PHP, HTML, CSS, JavaScript, AJAX, MySQL, jQuery

• **Responsibilities:** Full-stack development, database management, unit testing, client meetings, problem-solving

• **Key Achievements:** Led project discussions and planning
Delivered robust web applications using CodeIgniter and PHP
Ensured high-quality code through unit testing and efficient database management

PROCESS ANALYST, 06/2018 - 08/2019

Stream Perfect Global Services

- **Responsibilities:** Data entry and storage using Excel, ensuring accurate submission times
- **Key Achievements:** Maintained efficient data processing workflows
Ensured accuracy and timeliness in data submissions
Implemented strategies to improve data storage and retrieval processes

EDUCATION

College of Engineering Kallooppa, Pathanamthitta, 2018
B.Tech: Computer Science

CERTIFICATIONS

AWS Partner Accreditation (Business) (Classroom)

PROJECTS

Project Name: FRONTLINE FITNESS - CRM

<https://www.frontlinefitness.in/>

Description :

Developed a fitness center CRM system to manage leads, client assignments, and schedules for trainers and dietitians. Integrated features like role-based access, follow-ups, Google Calendar sync, and program tracking. Focused on streamlining daily operations and enhancing communication between staff and clients.

Technologies used: Django, Python, VueJS, MySql, Postman, API

Project Name: Hyperkonkret

URL : <https://app.hyperkonkret.se/>

Description :

Learning platform with user management, test attendance, result tracking, email, and payment gateway functionalities.

Technologies used: Laravel, Vue.js, TypeScript, API, MySQL

Project Name: KONE

URL : <https://www.kone.in/>

Description :

KONE is a global company specializing in the manufacturing of elevators and escalators, as well as providing maintenance and modernization services. This project focuses on managing individual performance, incentives, and payouts while also aggregating data at a broader level, presenting insights through graphs and tables.

Technologies used: Laravel, MySQL, jQuery, AJAX, HTML, CSS.

Project Name: Xelenz

URL : <https://xelenz.education/>

Description :

School management system with features for educator attendance marking, course handling, online classes management, and leave marking.

Technologies used: Laravel, MySQL, jQuery, AJAX, HTML, CSS.

Project Name: CLabs

URL : <https://www.producthunt.com/products/clabs>

Description :

LIMS software that allows you to manage your laboratory from the point of registration to the point of result generation and everything in between including complete lab management, reporting, and analysis.

Technologies used: CodeIgniter, HTML, CSS, API, MySQL, Javascript, Ajax, JQuery
